

THE RIGHT PEOPLE. THE RIGHT SOLUTIONS. THE RIGHT BUSINESS MODELS.

Not one company can do it alone. That's why Internet of Things World Asia brings together the right people that can deliver real-world IoT applications. The rest is up to you.

This is Asia's showcase of enterprise case studies, proof-of-concepts and R&D from the leaders and early adopters of IoT. As latest addition to KNect365's world-leading IoT event series, this event gives you unrivalled access to global and local enterprises – the people who can help you and your customers develop new services, business models and efficiencies.

Reflecting the convergence of connected technologies, this event forms part of TechXLR8 Asia, which showcased the latest developments in IoT, AI, 5G, NFV & SDN and start-ups. You can trust us, we have a 10-year track record as a leading tech events provider across Asia.
